

PE provision plan 2019-2020.

We have carried over £4676.15 and been given £6987 in July 2019. Projected further £9873 to come in October. As this

What?	How?	Approximate Costings
Engagement of all children to take part in regular physical activity (30mins per day)	We would like to put in some gym equipment onto the field. This would not only give children somewhere to participate in extra activity encouraged by their teacher, but also somewhere to do more during their break and lunch times. We will also look at playground markings of a running track to do a daily mile.	£4000
The profile of PE and sport being raised in school	To continue to offer a wide range of sports and activities to all children, to find a 'sport for all'. To promote clubs outside of school and achievements in school and between schools.	£2000
Increased confidence, knowledge and skills of all staff in teaching PE and sport. Broader experience of a range of sports and activities offered to all pupils.	Continue to work with coaches and experts in order to ensure children get a breadth of learning experiences and teachers are confident in all areas. We have some new staff this year. All upper KS2 children to take part in outdoor educational activities offered this year. To continue to maintain and manage the pool and give suitable training to staff, to ensure that all year 6 children can swim 25m and to extend swimming to the whole school and the	£14000

	community. We would also like to look into forest schooling and promote outdoor adventures, another way of engaging all pupils in some form of activity.	
Increased participation in competitive sport.	We have already as a pyramid and alongside our neighbouring SGO set the dates for fixtures for the year 19-20 and we know which of these events are 'feeder events' to the next round. We have agreed to put money into a 'pot' as a pyramid to fund these tournaments. As a school there is money in this 'pot' for transport to events.	£1000
