

## English -Class text: The Little Island

Aims of this sequence:

To reflect on our role as citizens of the world.

To develop our understanding of empathy and build empathy skills.

To explore concepts of mediation, conflict resolution, community, co-existence and society.

We will develop reader response and express reflections on age old societal challenges through a simple and accessible narrative.

## Science - Scientists and Inventors

We will be exploring a range of different Scientists and Inventors that have helped to shape the Science we know today.

## Computing - Programming

The children will look at the difference between count-controlled and infinite loops, and use their knowledge to modify existing animations and games using repetition. Their final project is to design and create a game which uses repetition, applying stages of programming design throughout.

## French - Les habitats

In this unit we will be exploring plant and animals habitats. We will be able to name different habitats and the types of plants and animals that can be found there.

# Hawks Summer 2

## PE - Swimming

We are looking forward to swimming this term where we will work to develop our swimming strokes. We will explore body position and develop our techniques as well as playing games and having fun. As part of our swimming lessons, we will also look at water safety.

## Music - Performance

This term, we will be learning songs ready for our end of year production. In order to do this, we will be carefully listening to the tempo and the lyrics to ensure we can replicate this with our own voices. We will also be considering how we can enhance our performances with actions and dance moves.

## RE - Christianity

Enquiry: Do people need to go to church to show they are Christians?

Theme: Prayer and Worship

## Maths

This half term we will all be learning time, money, shape, statistics and position and direction at both Year 3 and Year 4 level.

We will explore pounds and pence and how to calculate change.

We will learn how to tell the time accurately to 5 minutes.

We will explore different angles and 2D and 3D shapes. Through our statistics lessons we will interpret graphs and data.

## History - Anglo-Saxons

We will learn all about how the Anglo-Saxons settled in Britain and the lasting impact they left behind. We will also explore the beliefs they held and the many Gods they worshipped.

## Art - Bodies

We will be learning how to use pen, charcoal, felt tip to draw humans. We will make maquettes, paper clothes and sculpt Giacometti-inspired models

## PSHE - Growing and Changing

We will be exploring body changes in puberty, how to manage difficult feelings and looking at healthy relationships.
